

Narender Vaddepelly – JavaScript Developer, Hamburg, Germany

I'm a Full Stack Javascript Developer with over 8 years of experience in developing web applications and API's. I'm a product-focused developer who prioritizes user feedback first and foremost. Most of my work experience has been at startup companies as well as large organizations, so I'm used to wearing many hats. I'm a flexible developer who is always ready to take on new challenges.

Experience

11/2022 - PRESENT

AVIV Group, Germany – [Senior Frontend Developer](#)

As a Senior Frontend Developer at AVIV Group (Immowelt), I bring a wealth of experience in crafting seamless user interfaces. I collaborate closely with cross-functional teams, leveraging cutting-edge technologies to create intuitive, visually appealing, and highly responsive web applications. With a keen eye for detail and a passion for performance optimization, I ensure our products provide an exceptional user experience across devices and browsers. Additionally, I actively contribute to code reviews and mentor junior developers, fostering a collaborative and knowledge-sharing environment, ultimately playing a pivotal role in elevating front-end development efforts at AVIV Group.

Tech Stack: Angular 16, RxJS, JavaScript, Typescript, HTML, Ant Design, SCSS, WebComponents, Tailwind CSS.

03/ 2021 - 09/ 2022

ABOUT YOU, Hamburg, Germany – Frontend Developer

As a front-end developer for the Checkout team, I worked on improving the user checkout process and enhancing the purchase lifecycle by offering a range of payment options. Collaborated with the team to integrate multiple payment gateways and optimize the checkout process. The end result was a streamlined and user-friendly checkout process, leading to increased successful purchases and customer satisfaction.

Tech Stack: Vue JS, Vuex, JavaScript, React JS, Context API,, HTML, BEM CSS

09/2020 - 01/2021

Paypal(Altimetrik), Hyderabad, India – Senior Engineer

As a Senior Engineer of the PayPal team, I worked on developing enterprise web applications and next-generation web applications that catered to the needs of fraud analysts. To meet their requirements, we designed user interfaces that allowed users to explore, analyze, and view a large number of data points. To achieve this, we used modern development frameworks and tools to develop applications that were scalable, secure, and could handle large amounts of data

Tech Stack: React JS, Redux, TypeScript, JavaScript Node JS, HTML, CSS

05/2017 - 08/2020

Techolution, Hyderabad, India – Senior UI Developer

As part of the Techolution(Hearst Autos) team, I worked side-by-side with international developers, project managers, analytics managers, and account managers to successfully develop, test, and debug the caranddriver.com website. We utilized modern development frameworks and tools to ensure the site is scalable, secure, and provides a seamless user experience. Additionally, we conducted extensive testing to ensure the site is responsive and accessible on various devices and browsers. We collaborated closely with the team to identify and fix any bugs or issues that arose during development, ensuring a high-quality end product.

Tech Stack: Vue JS, Vuex, Angular 2+, RxJS, React JS, Redux, JavaScript, HTML, SCSS, Material Design, SSR, PWAs, SSR, Node JS and, MongoDB

11/2015 - 04/2017

NibbleMatrix, Hyderabad, India – Software Developer

I began my career here and worked on numerous minor projects, where I acquired many technical skills from colleagues. In response to the client's needs, we developed an e-commerce online food application that catered to both day-to-day and weekly orders. The solution included an intuitive user interface that allowed customers to browse and select their preferred food items and place orders. Additionally, the application provided real-time notifications to the client regarding new orders, enabling them to manage their online food orders efficiently. To ensure that the application

met the client's business needs, we worked closely with them to identify their specific requirements, such as payment gateways, inventory management, and order processing. We also integrated features to enable customers to leave reviews and ratings, helping the client to improve their customer service and reputation.

Tech Stack: Java, Hibernate, Angular JS, JavaScript, Node JS, MongoDB, HTML, CSS

Projects:

Immowelt - AVIV Group (11/ 2022 - Present)

Immowelt, a flagship platform of AVIV Group, stands as a prominent real estate marketplace renowned for its innovative property solutions. As a Senior Frontend Developer, I spearhead the creation of seamless, visually engaging web applications. By optimizing performance and offering mentorship to junior developers, I play a pivotal role in ensuring Immowelt's user-friendly and high-performing platform. This enables users to effortlessly navigate through an extensive array of property listings, making their real estate experience with Immowelt a breeze.

Checkout Team - ABOUT YOU (03/2021 - 09/2022)

About You is a pioneering fashion-tech company that combines personalized shopping experiences with cutting-edge technology. With a focus on individuality, they provide curated recommendations tailored to each customer's unique style. Embracing sustainability and inclusivity, About You is revolutionizing the way we shop for fashion.

Car and Driver - ABOUT YOU (05/2017 - 08/2020)

Car and Driver is a respected automotive publication known for its comprehensive reviews, industry insights, and engaging content, catering to the interests of car enthusiasts worldwide. With a legacy of excellence, it continues to be a trusted source of information in the dynamic world of automobiles.

Education:

08/2010 - 04/ 2014

CMR Technical Campus, JNTU University, Hyderabad – Bachelors of Technology
