

Narender Vaddepelly - [JavaScript Developer](#), Hamburg, Germany

I'm a front-end developer with around 8 years of experience in developing web applications with a focus on React, Angular & Vue JS. I'm a product-focused developer who prioritizes user feedback first and foremost. Most of my work experience has been at startup companies as well as large organizations, so I'm used to wearing many hats.

Data Structures & Algorithms

Experience

10/2022 - Present

AVIV Group, Hamburg, Germany - [Senior Frontend Developer](#)

At AVIV Group, I play a key role in leveraging Microfrontend architecture, resulting in smoother and more efficient UI development. This approach significantly minimizes redundant code and ensures a consistent user experience. Additionally, I focus on optimizing our applications for speed and responsiveness. Being an integral part of an agile team allows us to swiftly adapt to changes. I also contribute by conducting code reviews, providing guidance to junior developers, and fostering a culture of continuous learning, ultimately enhancing our development process.

Tech Stack: Angular 13 & 17, Typescript, JavaScript, HTML, Tailwind CSS, WebComponents, PWA, Service Workers

03/ 2021 - 09/ 2022

ABOUT YOU, Hamburg, Germany - [Frontend Developer](#)

At ABOUTYOU, I focused on improving the user checkout process, making it smoother and more user-friendly. I worked with a team to integrate different payment options, making sure customers could easily complete their purchases. This resulted in more successful transactions and happier customers. Additionally, I was part of a team that adapted quickly to changes and worked closely with others to review code and help junior developers. This collaborative environment made our development process more effective.

Tech Stack: Vue JS, Vuex, JavaScript, React JS, Typescript, HTML, BEM CSS

09/2020 - 01/2021

Paypal(Altimetrik), Hyderabad, India - [Senior Engineer](#)

At PayPal, I developed web applications tailored for fraud analysis. This involved creating user interfaces that allowed easy exploration of large sets of data. We focused on making sure the applications were secure, scalable, and could handle a lot of data. I also worked with an international team to thoroughly test and debug the applications, ensuring they worked well on different devices and browsers.

Tech Stack: React JS, Redux, TypeScript, JavaScript, HTML, CSS

05/2017 - 08/2020

Techolution, Hyderabad, India - [Senior UI Developer](#)

At Techolution, I collaborated with an international (HearstAutos) team to develop and refine the [caranddriver](#) website. We used modern tools to ensure it was secure, scalable, and provided a seamless experience for users. I also conducted extensive testing to make sure the site worked well on various devices and browsers. I worked closely with the team to fix any issues that came up during development, ensuring a high-quality end product.

Tech Stack: Angular 2+, RxJS, Vue JS, Vuex, React JS, Redux, JavaScript, HTML, SCSS, Material Design, SSR, PWAs, Node JS and MongoDB

11/2015 - 04/2017

NibbleMatrix, Hyderabad, India - [Software Developer](#)

At NibbleMatrix, I began my career and worked on several projects. We developed an e-commerce food application that catered to both day-to-day and weekly orders. The application included an easy-to-use interface for customers to browse and place orders. I also integrated features for real-time notifications, helping clients manage their online food orders efficiently. We closely collaborated with clients to understand their specific requirements, like payment gateways and inventory management, and integrated features for customer reviews and ratings to enhance their service and reputation.

Tech Stack: Java, Hibernate, Angular JS, JavaScript, Node JS, MongoDB, HTML, CSS.

Projects

Immowelt - AVIV Group (10/ 2022 - Present)

Immowelt, a flagship platform of AVIV Group, is a premier real estate marketplace known for its comprehensive property listings and innovative solutions. The website provides users with a seamless experience, featuring advanced search filters and detailed property information. Immowelt's intuitive interface and robust performance make it easy for users to navigate through diverse property options, whether they are looking to buy, rent, or sell. By continuously optimizing its platform, Immowelt ensures that users have access to the latest real estate opportunities and market insights, making their property search efficient and effective.

Tech Stack: Angular 13 & 17, Typescript, JavaScript, HTML, Tailwind CSS, WebComponents, PWA, Service Workers

Checkout Team - ABOUT YOU (03/2021 - 09/2022)

About You is a pioneering fashion-tech company that combines personalized shopping experiences with cutting-edge technology. With a focus on individuality, they provide curated recommendations tailored to each customer's unique style. Embracing sustainability and inclusivity, About You is revolutionizing the way we shop for fashion.
